It is not advisable to feed uncooked sour apples to pigs that are fattening on corn. The acid in the fruit injures Alarm Thermometers.

A practical invention o direct interest to householders is thus described by the New York Herald: At the recent London Health Exhibition an improvement on the thermometer was exhibited which may be put to many uses to which the old instrument has a long to the property of the prop

exhibited which may be put as uses to which the old instrument has not been hitherto extensively applied. This improvement is an adjustable electric apparatus so arranged that a bell can be rung whenever the tembell wood clip of 1885 will be, the world over, considerably below that of 1884. This will especially be the case in the United States, where thousands of sheep are being slaughtered on achieved the control of the c sheep are being slaughtered on ne-count of the low price of wool, and in Australia, where 10,000,000 to 12,000,-000 are said to have died from the effects of the drought. It is a good time to improve your flock, not to sacri-

Ce it. Hold on to your sheep, remarks the American Agriculturist. The depressing tendency of the wood market is apt to influence many sheep-raisers to get rid of their flocks at any price and go out of the business. We believe those who do this will miss it. Every business has its low tide, but it will surely rise again, and they who hold on to their sheep will be gainers in the end. The farmer or stock raiser should not be fickle.

# Whiskholders.

Some of the prettiest and most serviceable whisk broom holders are the least expensive. The flat "straw cuff," which is made for this purpose, and can be purchased for a few cents, is entirely transformed and glorified by being gilded and having a few tiny rescork feathers placed upon it. Add. when we pour milk into a cup of a few this information: "The house Cat.

have "taken! Many a day I would be very dizzy, and everything would get dark. At other times I could scarcely breathe from choking sensa-tions. Then my appetite left me and I grew thin, weak, and lifeless. I was drowsy by day and wakeful by night, My side pained me, my back ached, my limbs burned. I bloated fearfully and one log my backled. For the and one leg got paralyzed. For ten months I suffered desperately, and two

prominent physicians gave me up for a dead man, sure." "You don't look it now?" "No, that's so, but it was a fact, just the same. When I found out my trouble, I at once resorted to Warner's Safe Cure and a dozen bottles put me in possession of the best health I ever expected to enjoy, and I was pro-nounced incurably sick with Bright's disease. It is the most wonderful medicine in the world." "Indeed. You are a fortunate man.

Is there any falling off in the fireworks business this year?"
"Not at all. On the contrary it

grows more popular every year, and this year we have done an extraordi-nary business. The American people are getting quite as fond of display as the mercurial Frenchman and they manifest it by rockets and volcanoes, political beauer, canada uniforms.

twenty years ago. But for the last twenty years gold mining has produced small returns, nor has after mining held its own. This falling off has occurred in a time when there was a produgious addition to the commercial and industrial activity of the age, and when more, instead offless, money was needed to keep the business of mankind in motion. The action of Germany and other nations in demonetizing silver has still further reduced the precious silver reserve, and as a consequence the business of the world is in distress, and is likely to remain so for years to come. But the possessors of real model to the cold of make the food too wet, as an excess of neady money were never so well off. The capitalist increases in wealth, because the fall of prices is but another way of saying that money has a greater purchasing power. — Demorest's Monthly tor December.
